| Building Permit | B-22-98 | Kyle Dunham | Owner | | 1055 N MAIN ST, SHERIDAN, WY 82801 | Active | Alterations - Residential | Please find attached a drawing of the current building layout and the new proposed layout. Please note we have not changed the size or any of the structure of the building. We are replacing the siding and windows. The windows were different sizes in some cases which required us to relocate several wall switches and outlets. While the electricians are on site, we will have them add remodel can lights in all the rooms as well as a few extra outside lights. I don't believe paint, trim, and flooring normally would require a build permit but because we are doing this in conjunction with siding and window replacement that may be a revenue generator for the city now. Not sure on that so I added it just in case. Please let me know if you need anything else. | Apr 4, 2022 | \$14,600.00 | \$770.88 |
